

MAX_base legno / MAX_wooden base

Design Antoy Filips

Max con base in legno è la sedia moderna imbottita che sembra una poltroncina, perfetta per accogliere gli ospiti in modo confortevole. Questa sedia in legno moderna è stata realizzata dal designer Antoy Filips che l'ha voluta comoda e confortevole grazie all'imbottitura della seduta che poggia su una base in legno massello di frassino tinto. La Sedia Max con base in legno è personalizzabile in diversi materiali, è infatti disponibile in pelle, ecopelle o tessuto. Il rivestimento non è sfoderabile. La struttura sobria ed elegante della sedia Max con base in legno si abbina facilmente con la madia Alma Diamond. Per una versione più elaborata, vi consigliamo di dare un'occhiata anche alla sedia Max Diamond con base in legno con schienale trapuntato oppure alla poltroncina con braccioli Max Deluxe. Ora arricchita da una versione con seduta più larga e profonda: Max L.

Max with wooden base is the modern padded chair that looks like an armchair, perfect for welcoming guests comfortably. This modern wooden chair was created by designer Antoy Filips who wanted it to be convenient and comfortable thanks to the padding of the seat which rests on a solid stained ash wood base. The Max chair with wooden base can be customized in different materials, it is in fact available in leather, eco-leather or fabric. The cover is not removable. The sober and elegant structure of the Max chair with wooden base easily matches with the Alma Diamond sideboard. For a more elaborate version, we recommend you also take a look at the Max Diamond chair with wooden base with quilted backrest or the Max Deluxe armchair with armrests. Now enriched by a version with a wider and deeper seat: Max L.

The colours displayed are indicative and can vary in reality. Please contact EFORMA or your preferred retailer for more information. EFORMA reserves the right to change and/or apply technical and esthetical improvements to its models and products at any time without any notice.*

Metallo/Metal

I metalli della nostra collezione vengono verniciati a polvere così da rivestire le nostre superfici a scopo decorativo e protettivo. Lo spessore finale della verniciatura a polveri, risulta particolarmente elevata contribuendo ad una serie di rilevanti vantaggi sul prodotto verniciato: resistenza meccanica, resistenza agli agenti corrosivi, scarsa infiammabilità, precisione nell'applicazione. Le verniciature a polveri utilizzate sono totalmente atossiche e prive di solventi, per questo motivo la verniciatura a polveri è una lavorazione ECO-FRIENDLY, a bassissimo impatto ambientale. Disponibile la versione cromata dove il metallo o l'alluminio vengono rivestiti di cromo, conferendogli così durezza, resistenza chimica e resistenza all'ossidazione. / *The metals in our collection are powder coated in order to coat our surfaces for decorative and protective purposes. The final thickness of the powder coating is particularly high contributing to a series of advantages for the painted product: mechanical resistance, resistance to corrosive agents, low flammability, precision in the application. The powder coatings used are non-toxic and solvent-free, for this reason powder coating is an ECO-FRIENDLY process, with a very low environmental impact. The chrome version is available where the metal or aluminum is coated with chrome, giving it hardness, chemical resistance and resistance to oxidation.*

Legno/Wood

Il legno che viene utilizzato è tra i migliori che esistono sul mercato europeo. Viene lavorato con le migliori tecniche garantendo così resistenza e durata. *The wood which is used is one of the best available in European markets. It is worked with the best techniques guaranteeing resistance and durability.*

LEGNO MASSELLO/SOLID WOOD

Il legno utilizzato è un materiale di pregio che si caratterizza principalmente per la resistenza all'usura e per l'estetica. Durante il suo ciclo di crescita, sviluppo e maturazione, il legno si evolve nelle sue qualità come il cambio nel colore, nei nodi, e nelle vene. Essendo un materiale vivo, e naturale, può presentare delle variazioni di vene e di tonalità. *The wood used is a valuable material that is mainly characterized by its wear resistance and its aesthetics. During its cycle of growth, development and maturation, the wood's qualities. Evolve showing a change in color, in the knots, and in the veins. Being a living, natural material, it can present variations in veins and shades.*
